INTRODUCTION

EMPOWERING WELLNESS WITH BLOCKCHAIN

Nativis is dedicated to bridging wellness and blockchain technology, creating a reward-driven ecosystem that incentivizes healthier lifestyles while offering real-world value for users and investors alike. Our mission is to make wellness accessible, engaging, and financially rewarding through decentralized incentives, all powered by the Nativis Token (NBT).

Wellness and blockchain are two industries on the rise, yet they rarely intersect in a meaningful way. Nativis is changing that by introducing a decentralized wellness ecosystem where users can earn, engage, and benefit from healthy living. By integrating blockchain technology into wellness, we provide users with real incentives to build sustainable health habits, while giving brands an innovative way to connect with their target audience.

With the Nativis Wellness App, we are revolutionizing health engagement by creating a platform that rewards users for completing wellness challenges, encourages long-term token holding, and fosters a thriving Web3-powered health economy.

INTRODUCTION

THE VISION OF NATIVIS TOKEN (NBT)

At the core of this ecosystem is Nativis Token (NBT)—a digital asset designed to fuel wellness incentives, reward participation, and provide exclusive access to premium wellness experiences. Instead of focusing solely on payments, NBT is integrated into a wellness-driven reward system, giving it real-world utility beyond speculation.

With NBT, users can:

- Earn rewards by participating in hydration, fitness, meditation, and mindfulness challenges.
- Unlock premium wellness experiences by holding or staking their tokens.
- Engage with wellness brands that offer exclusive NBT-funded perks and incentives.

By merging natural wellness with cutting-edge blockchain innovation, Nativis & Bliss is reshaping how people engage with wellness—not just as a lifestyle, but as a rewarding financial experience. With a seamless, secure, and decentralized approach, we empower users to take control of their well-being while benefiting from the growing Web3 economy.

PROJECT OVERVIEW

WHY BLOCKCHAIN?

THE FUTURE OF WELLNESS & FINANCE

At Nativis, we believe that blockchain technology is the key to creating a seamless, transparent, and rewarding wellness ecosystem. Traditional wellness programs lack incentives and accessibility, making it difficult for users to stay engaged. By integrating blockchain-powered rewards, we eliminate these barriers, providing a decentralized, user-friendly wellness economy that benefits both participants and brands.

The Nativis Wellness App is designed to redefine the intersection of wellness and blockchain, giving users real incentives to maintain healthy habits while ensuring that brands gain visibility and engagement through sponsored challenges and premium perks.

A BLOCKCHAIN-POWERED WELLNESS ECOSYSTEM: THE BENEFITS OF \$NBT

With blockchain integration, the Nativis Wellness App creates a next-generation ecosystem where:

- Users earn rewards for wellness through simple and engaging challenges.
- Brands gain exposure by sponsoring wellness activities that promote their products/services.
- Holding NBT unlocks real-world benefits, making it more than just a digital asset.

By leveraging blockchain, Nativis is building a wellness-first digital economy, ensuring that healthy living is not just rewarding but financially beneficial for everyone involved.

PROJECT OVERVIEW

NATIVIS WELLNESS APP POWERING THE FUTURE OF WELLNESS

NBT is at the core of our wellness-driven ecosystem, providing users with tangible value through:

EARN REWARDS FOR WELLNESS ACTIVITIES

Users complete brand-sponsored challenges in categories like hydration, fitness, meditation, and sleep tracking to earn NBT. Instead of relying on traditional tracking methods, brands provide the challenges, and users participate based on self-engagement and completion.

Key Benefits:

- No data tracking required – Users can engage in wellness activities freely.
- Brand-funded challenges – Ensuring a sustainable reward system.
- Simple & accessible – Open to all, increasing user participation.

HOLDING & STAKING NBT FOR PREMIUM ACCESS

Users who hold or stake NBT unlock premium wellness experiences, including exclusive retreats, spa treatments, and luxury wellness services.

Key Benefits:

- Encourages long-term holding – Strengthening the token's value and reducing sell pressure.
- Real-world perks for NBT holders – Bringing tangible benefits beyond speculation.
- Attracts wellness enthusiasts & investors – Positioning NBT as a true utility token.

PROJECT OVERVIEW

NATIVIS WALLET & STAKING PLATFORM

The Nativis Wallet will serve as the gateway to the ecosystem, enabling users to securely store, stake, and manage NBT while earning passive rewards.

Key Features:

- Secure NBT storage with full Web3 compatibility.
- Built-in staking to earn additional NBT rewards.
- Seamless integration with the Nativis Wellness App for direct engagement.

NATIVIS DASHBOARD – A UNIFIED WEB3 PLATFORM

The Nativis Dashboard will be the central hub for users to manage their NBT holdings, staking, wellness rewards, and DeFi interactions in one seamless interface.

Key Features:

- Real-time NBT balance tracking and portfolio insights.
- Access to staking, rewards, and governance voting.
- Integrated swap & liquidity management tools.
- Direct connection to the Wellness App for challenge participation & claims.

TOKENOMICS

TOTAL SUPPLY: 1,000,000,000 NBT

TOKENOMICS EXPLAINED

1 BILLION SUPPLY

Designed for affordability and efficient micro-reward distribution.

50% PRESALE ALLOCATION

All tokens purchased during the presale will be fully unlocked at the Token Generation Event (TGE), allowing immediate access and liquidity. By allocating 50% of the total supply to the presale, we ensure strong early adoption, robust market liquidity, and a dynamic, community-driven ecosystem that fosters long-term growth and engagement from day one.

20% DEX LIQUIDITY POOL – LOCKED FOR 365 DAYS

To ensure market stability and smooth trading, 20% of the total token supply will be allocated to the DEX Liquidity Pool. This liquidity will be locked for 365 days, preventing early withdrawals and protecting investors from sudden price fluctuations. By securing a deep and stable liquidity pool, we enhance trust, price stability, and long-term sustainability, creating a solid foundation for trading and ecosystem growth.

10% MARKETING ALLOCATION

To fuel brand visibility, user adoption, and ecosystem growth, 10% of the total supply will be allocated to marketing initiatives. These funds will support promotional campaigns, influencer partnerships, strategic airdrops, and community engagement efforts. By investing in a strong marketing strategy, we aim to attract new users, strengthen investor confidence, and drive long-term project success.

TOKENOMICS EXPLAINED

9% TEAM ALLOCATION

To ensure long-term commitment and project sustainability, 9% of the total supply is allocated to the team. 15% of this allocation will be unlocked at launch, providing initial incentives, while the remaining tokens will be vested over 6 months. This structured release schedule aligns the team's interests with the project's success, fostering continuous development, innovation, and long-term value creation for the ecosystem.

6% PARTNERSHIP ALLOCATION

To foster key collaborations and ecosystem expansion, 6% of the total supply is allocated to partnerships. 15% of this allocation will be unlocked at launch, with the remaining tokens vested over 6 months to ensure a gradual and sustainable distribution. This approach incentivizes long-term cooperation with strategic partners, enhancing utility, adoption, and the overall growth of the project.

3% ECOSYSTEM ALLOCATION

To support the continuous development and expansion of the platform, 3% of the total supply is allocated to the ecosystem fund. These tokens will be used to enhance platform features, integrate future utilities, and drive innovation within the ecosystem. This allocation ensures the project remains adaptable, scalable, and capable of evolving with industry trends and user needs.

2% STAKING ALLOCATION

To incentivize long-term holding and reward loyal participants, 2% of the total supply is allocated to the staking pool. These tokens will be distributed as staking rewards, encouraging users to stake their Nativis Tokens (NBT) and actively participate in the ecosystem. This allocation strengthens network security, promotes price stability, and enhances user engagement by providing sustainable incentives for long-term holders.

PRESALE DETAILS

PARAMETER	DETAILS
PLATFORM	Gempad
PRESALE ADDRESS	0xa6D266eA9B5D2C18D83aD5770108598C0F8Ed695
SOFT CAP	10 ETH
HARD CAP	100 ETH
PRESALE RATE	5,000,000 NBT per ETH
LISTING RATE	4,500,000 NBT per ETH
LIQUIDITY LOCK	50% for 365 days
PRESALE START	March 20, 2025 (UTC 15:00)
PRESALE END	March 27, 2025 (UTC 15:00)
MIN BUY	0.01 ETH
MAX BUY	2 ETH
UNSOLD TOKENS	Burn

SMART CONTRACT

SMART CONTRACT OVERVIEW

Nativis Token (NBT) is a fully audited dividend-yielding ERC-20 token built on the Ethereum blockchain. Designed to reward holders with passive ETH earnings, NBT enables seamless crypto payments, staking, and DeFi utilities while maintaining a secure and transparent ecosystem.

3% ETH REWARDS FOR HOLDERS

NBT is a dividend token, meaning holders automatically earn Ethereum (ETH) rewards by simply holding NBT in their wallets.

How It Works:

- 3% of every buy and sell transaction is redistributed in Wrapped Ethereum (WETH) to NBT holders.
- Rewards are automatically distributed—no need to claim manually.
- The more NBT you hold, the greater your ETH earnings over time.

Passive income made simple – earn Ethereum without staking or farming!

SMART CONTRACT

SMART CONTRACT INFORMATION

Token Name	Nativis Token
Token Symbol	NBT
Blockchain	Ethereum (ERC-20)
Contract Address	0x902D5E8c71013ED06dc9a6d465f0032f3F515a4A
Total Supply	1 Billion NBT
Decimals	18
Router	Uniswap
Base Token	ETH
Reward Token	Wrapped Ethereum (WETH)
Min Balance for Rewards	1,000,000 NBT
Reward Fee	3%
Liquidity Fee	2%
Marketing Fee	5%

ROADMAP

Q1 GENESIS & GROWTH

- Website launch & branding expansion
- Strategic partnerships (Solidrate & All of Crypto)
- Presale launch on Gempad
- Liquidity pool deployment on Uniswap
- Crypto payment integration into Nativis & Bliss eCommerce
- CMC and CoinGecko Listing

Q2 BUILDING THE ECOSYSTEM

- Crypto payments go live on Nativis & Bliss eCommerce
- Kickoff Nativis Wellness App development
- Launch of staking rewards & governance features
- Built-in Staking Wallet development begins
- Dashboard development (swap, liquidity, and staking integration)
- Beta testing & audits for dApp before full release
- Wallet app release with built-in staking (Google Play Store)

ROADMAP

Q3 DEFI & EXPANSION

- Release of Nativis Wellness App
- Expansion of wellness brand partnerships
- Introduction of first exclusive staking-based premium rewards
- Full launch of the Nativis dApp (swap, liquidity, staking)
- Strategic CEX listing applications
- Aggressive marketing & influencer campaigns
- Community-driven growth initiatives

Q4 SCALING & GLOBAL ADOPTION

- Expanded CEX listings & liquidity partnerships
- Further adoption through community governance & innovation
- Sustainable growth & future development planning
- NFT-based wellness membership passes & loyalty rewards
- Research & development for new staking & governance utilities
- New ecosystem utilities & integrations

PARTNERSHIPS

AUDIT & DAPP DEVELOPMENT

To ensure security and seamless functionality, Nativis has teamed up with Solidrate, a specialized firm in blockchain auditing and dApp development. Solidrate is responsible for auditing the Nativis smart contracts, ensuring security and reliability. Additionally, they are leading the development of the Nativis dApp, which will integrate staking, a native wallet, a swap feature, and crypto payment solutions, enhancing the user experience and utility of the Nativis ecosystem.

MARKETING & GROWTH

Nativis has partnered with All Of Crypto (AOC), a leading marketing agency in the blockchain space. AOC specializes in crypto project exposure, community engagement, and strategic growth, ensuring Nativis gains strong market visibility. Through targeted campaigns, influencer collaborations, and community-building efforts, AOC will help position Nativis for long-term success in the crypto ecosystem.

SECURITY & AUDIT

At Nativis, security, transparency, and investor protection are our top priorities. We have implemented multiple verification measures to ensure a safe and trustworthy ecosystem.

SMART CONTRACT AUDITED

The NBT smart contract has been fully audited by Gempad, ensuring security, transparency, and compliance with best practices.

KYC VERIFIED BY SOLIDRATE

The Nativis team has undergone KYC verification by Solidrate, confirming team identities for enhanced security and accountability.

DOXXED BADGE BY GEMPAD

Gempad has awarded Nativis the Doxxed Badge, verifying that the team is publicly identified, reinforcing credibility and investor trust.

BUSINESS BADGE BY GEMPAD

Nativis is a legally registered company, confirmed by Gempad's Business Badge, ensuring compliance and legitimacy.

ANTIBOT PROTECTION

Anti-bot measures have been implemented to prevent unfair trading practices, ensuring a fair and stable launch.

LIQUIDITY LOCKED

The liquidity pool is locked for 365 days, ensuring long-term market stability and investor confidence.

TEAM & PARTNERSHIP VESTING

A structured vesting schedule prevents market manipulation, ensuring fair token distribution and long-term commitment.

CONCLUSION

THE FUTURE OF DECENTRALIZED WELLNESS & FINANCE

Nativis Token (NBT) is more than just a cryptocurrency—it's a bridge between blockchain technology and the wellness industry, where users are rewarded for prioritizing their health. By integrating decentralized wellness incentives, staking-based rewards, and brand-sponsored challenges, NBT creates a secure, user-driven, and engaging wellness economy.

With a clear roadmap, a strong and transparent team, and an audited smart contract, NBT is positioned to redefine how blockchain intersects with health and well-being. Users can earn NBT by completing wellness challenges, hold or stake tokens to unlock exclusive perks, and participate in a system that incentivizes long-term engagement while promoting healthier lifestyles.

As adoption grows and partnerships expand, Nativis aims to become the leading Web3 wellness ecosystem, offering users real-world benefits while maintaining the core principles of decentralization and community-driven growth. Whether you are looking to improve your well-being, engage in meaningful brand-sponsored wellness activities, or benefit from blockchain incentives, NBT provides the perfect gateway to the future of decentralized wellness rewards.
